

Team Session – Paris Group (LIAFA)

Olivier Serre

6th of March 2009

Structure:

- ~70 members
- Three teams:
 - ▶ Algorithmics & Combinatorics,
 - ▶ Automata & Applications,
 - ▶ Modelisation & Verification.

 - ▶ Algorithmics & Combinatorics,
 - ▶ Automata & Applications,
 - ▶ Modelisation & Verification.

Collaborations related to GASICS themes:

- National ones: Cachan, Rennes, Bordeaux, Marne-la-Vallée
- International ones: Aachen, Warwick, Mons, Amsterdam, Oxford. . .

Topics

- Games with payment functions.
- Stochastic games.
- ATL like logics.
- Timed games.
- Games for scheduling.
- Games on infinite structures.
- Games with imperfect information.
- Games for automata theory.
- Tree automata.
