International Postgraduate Research Scholarships (IPRS)

The objectives of the IPRS scheme are to:

• attract top quality international postgraduate students to areas of research strength in Australian higher education providers (HEP); and

• support Australia's research effort.
The scholarship covers **tuition fees** and **health cover costs** for scholarship holders, and health cover costs for their dependents. Scholarships are open to international students of all countries (except New Zealand) and are available for a period of:

- two years for a research masters degree or
- three years for a research doctorate degree.
Application:

• Applications for an IPRS need to be made directly to participating universities. Universities are responsible for the management of IPRS applications, the selection process and offers. International students and researchers need to approach their chosen university for direction about how to apply for an IPRS.

Budget:

• A total of 330 IPRS places are awarded to HEPs each year at a cost of around $20m (approx. €13m) per annum.

Australian Postgraduate Awards (APA)

The objectives of the APA scheme are to:

• Support postgraduate research training in the higher education sector; and

• Provide financial support to postgraduate students of exceptional research promise who undertake their higher degree by research (HDR) at an eligible Australian higher education provider (HEP).
APAs are provided to assist with students' **general living costs**. International Postgraduate Research Scholarship recipients are eligible to apply for an APA.

Awards are available for a period of two years for a research masters degree or three years, with a possible extension of six months, for a research doctorate degree.

Award holders receive an annual stipend and may also be eligible for other allowances.
Application:

• Applications for an Australian Postgraduate Award (APA) need to be made directly to participating universities.

APA Stipend Rates (2016):

• Full-time APA stipend rate $26,288 (approx. €16,900)
• Part-time APA stipend rate $13,144 (approx. €8,400)

Australian Research Council (ARC)

Applications for grants from the ARC are made via eligible organisations, not directly by individual researchers or research teams.

The ARC funds research and researchers under the National Competitive Grants Program (NCGP).
The NCGP comprises two main elements - **Discovery** and **Linkage** - under which the ARC funds a range of complementary schemes to support researchers at different stages of their careers, build Australia’s research capability, expand and enhance research networks and collaborations, and develop centres of research excellence.
### National Competitive Grant Programme (NCGP)
