

Parties d'ouvrages collectifs

- P. Berke, A.V. Solov'yov, A. Lyalin, M.-P. Delplancke-Ogletree, V.V. Semenikhina, “*Simulation of the nanoindentation procedure on Nickel on the smallest length scale: a simple atomistic level model*” (21 pages) in press Latest Advances in Atomic Cluster Collisions: structure and dynamics from the nuclear to the biological scale (edited by J.-P. Connerade and A.V. Solov'yov), Imperial College Press, London (2008)
- Ph. Bouillard, K. Menchel, B. Santafé and T. J. Massart, “*Progressive collapse simulation techniques for RC structures*”, in ‘Structural Design of Constructions subjected to exceptional or accidental actions’, Ph. Bouillard, Y. Rammer, J. Vantomme (Eds), Presses universitaires de Bruxelles, Bruxelles, Chapter 5: 92-114 (2008)
- T.J. Massart, R.H.J Peerlings, M.G.D. Geers, Ph. Bouillard, “*A multi-scale computational approach for the Fracture behaviour of quasi-brittle materials*”, in ‘Progress in Computational Structures Technology’, B.H.V. Topping (Ed.), Saxe-Coburg Publications, Stirlingshire, Scotland, Chapter 15: 303-324 (2006)
- Ph. Bouillard, J. Ch. Lemaire (Eds), “*L'apprentissage des sciences en question(s)*”, Éditions Espace de Libertés - La Pensée et les Hommes, Bruxelles, ISBN 2-930001-69-0 (2005)
- Ph. Bouillard, T. Mertens, L. Hazard, P. Villon, “*Les méthodes numériques alternatives pour la simulation de la propagation des ondes à moyennes fréquences*”, in ‘La méthode des éléments finis : extensions et alternatives’, P. Breitkopf (Ed.) Lavoisier, Paris, ISBN 2-7462-1170-X, Chapitre 8:349-382, *invited*, (2005)
- Ph. Bouillard, T. Mertens, Th. J. Massart, “*Numerical modelling of wave propagation in the medium frequency range : overview and trends*”, in ‘Progress in Computational Structures Technology’, B.H.V. Topping & C.A. Mota Soares (Eds.) Saxe-Coburg Publications, Stirling, Scotland, ISBN 1-874672-21-0, Chapter 3:59-76 (2004)
- R. Filomeno Coelho, Ph. Bouillard, H. Bersini, “*PAMUC : A New Method to Handle with Constraints and Multiobjectivity in Evolutionary Algorithms*”, in ‘IUTAM Symposium on Evolutionary Methods in Mechanics’, T. Burczynski and A. Osyczka (Eds.), Kluwer Academic Publishers, The Netherlands, ISBN 1-4020-2266-2, Chapter 9:91-100 (2004)
- Ph. Bouillard, F. Ihlenburg, “*Error estimation and adaptivity for the finite element solution in acoustics*”, in ‘Advances in Adaptive Computational Methods in Mechanics’, P. Ladevèze and J.T. Oden (Eds), Elsevier, ISBN 008-043327-8, 477-492 (1998)

Articles dans des revues internationales à comité de lecture
