

# A **NEW** international **PhD** program

at the Faculty of Chemistry, University of Warsaw  
in cooperation with international research partner institutions

## From **SIMPLE** molecules to **NANO**structured and **BIO**active materials

four thematic lines:

- Simple systems with complex molecular interactions
- Nanostructured materials and biomaterials
- From new materials to devices
- Biomacromolecules and therapeutic systems  
-modeling and development

Up to **12** students will be admitted, for more information go to:

[http://www.chem.uw.edu.pl/msd\\_phd/](http://www.chem.uw.edu.pl/msd_phd/)

Students from all countries  
are invited to apply!

**Deadline: June 08, 2009**

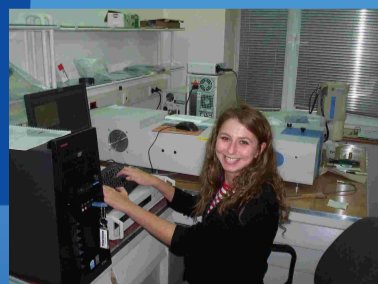

A fellowship:  
3000 PLN/month (tax-free)  
+ 500 PLN/month (insurance)  
Duration of the program:

**4 years**

including

**6-24 months spent abroad**

FROM SIMPLE MOLECULES  
TO NANOSTRUCTURED AND BIOACTIVE MATERIALS
